APRIL 2011

All **RESIDENTS** and **BUSINESSES** of: all of **LANTANA, RENO, AUBURN** (4758-5160) **DRIVES**; all of **ONTARIO, CASTLE, South side of UNIVERSITY** (4749-4849), East side of **EUCLID** (3611-3889), **ESTRELLA** (3803-3857) **AVENUES**; **DWIGHT** (4759-4792), **WIGHTMAN** (4750-4871) **STREETS**.

NEXT ASSOCIATION MEETING

TUESDAY, MAY 10, 2011 @ 6:15 PM

5123 University Avenue, 92105

(The Auburn Park community room)

**Members of neighboring communities
and the public are welcome**

Now that water is expensive it is completely necessary to deliver accurate water bills and excellent customer service. At the January's meeting many neighbors raised questions about water meter reading and other Water Department issues.

GET INVOLVED!

Now it's your once in-a-lifetime opportunity to bring your questions and concerns directly to the Managers of the Water Department. You will be able to express your concerns, ask direct questions and learn solutions.

The association is proud to present this resource directly to the residents of our communities brought to you by the courtesy of Councilmember **Marti Emerald's** Office.

The City of San Diego Public Utilities Department provides safe, healthful drinking water to the 1.3 million residents of San Diego and regional wastewater treatment and disposal services for more than 2 million residents of San Diego County.

In the Customer Service Division the **Field Services and Investigations Section (FSI)** is composed of approximately 60 employees. We provide the following water-related services to the public:

Meter Reading	Cross Connection
Field Investigations	Shut Off and Restoration
Code Compliance	

REDISTRICTING

Since the devil is in the details and the details are in the contract, we, regular folks need to be involved and step-in into the negotiating of the new redistricting contract to weed out the devil; when negotiating new political boundaries. Let us review some of the details with the hope that soon you will join us in asking for a redistricting contract that is more favorable and equitable to you, to your neighbors and to your community and not to City hall insiders, special interest groups, other organizations, or to any political party. Before all, we need to recognize that redistricting is a political process

nasty and aggressive and which end-result is to draw new political boundaries to existing Council Districts and, not since 1965, create a new one. Due to some manmade messes and gross inequalities created in the past, this mandated process has gone from the politicians to the "**politicos**", from gross overt gerrymandering to sophisticated, quiet and surgical gerrymandering. The kind of: let's hope they don't have their glasses on to see this little wiggly line going through the heart of their closed nit community cutting it in half.

So what is natural and expected? Expected is lots and ugly cut-throat political maneuvering behind the scenes, cronyism and lots of hearsay accusations. Early returns on this "detail" ranges from the composition of the Redistricting Commission and each one of its members and what disclosures each member should have made, or needs to make, to come completely clean with the community they claim is the subject of their volunteer service and purpose. To news reports that lobbyist organizations and individuals are being paid with grant money from a foundation for doing what needs to be community originated volunteer work, not a paid job, and So-and-So's connections to labor unions and keeping track of where Emily Serafy Cox, the Empower San Diego Executive Director, goes and with whom she meets to prove collusion. Spinners and conspiracy theorists are having a ball trying to derail participation and muddy the process. The let's dig dirt "detail" is going so far out that the huge pile of dirt they are excavating is going to bury them, but hopefully not us. Let us hope that this sideshow can inspire you to participate fully in the process to express your points of view without prejudice, correctly and efficiently and let everyone know which one of our communities share our interest.

Continue Reading **REDISTRICTING**, page 6

NEXT ASSOCIATION MEETING

Tuesday, MAY 10, 2011 @ 6:15 PM

5123 University Avenue

(Community Room at AUBURN PARK)

Proposed Agenda:

WATER DEPARTMENT

FIND the answer to your water bill questions and much more.

COME and JOIN US!

The BOARD of DIRECTORS

Will meet May 26, 2011 @ 6:30 PM

Fox Canyon Neighborhood Association, Inc.

[A 501 (c) (3) **Public Benefit and Social Welfare** (www.IRS.gov
"publication 78" listed) Nonprofit Corporation]

4916 Lantana Drive, SD, CA 92105 (619) 282-2788

FoxCanyonN@aol.com Web www.FoxCanyon.Org

ISSUES RAISED BY THE COMMUNITY

(January 2011 meeting)

Water Department:

1. **Providing bad customer service, bad attitude.**
2. **Not reading water meters** (see street ranges, below)
3. Water Meter-Readers not reporting broken and leaking pipes (**more proof that meters are not being read**), 4700, 4800, 4900 and 5000 hundred blocks of Wightman Street including alley between Euclid and 47th Street and **3800** block of Winona.
4. Winona 3800 block at Wightman: sewer project left behind leaking sprinkle heads.

At this month's meeting to address the above concerns:

The FSI is managed by Delia Dee. Tony Leyva manages the Meter Reading, Field Investigations and Shut Off and Restoration Sections. It is the Section's largest operation.

Delia Dee

Section Manager
(858) 614-5519

- Has worked with the City of San Diego for 22 years, approximately seven with Public Utilities.
- Has managed FSI since October 2010.
- Has worked in a variety of other City departments, including the Police Department, Mayor's Office, Managers Office, Park and Recreation, Environmental Services and the Public Library.
- Most of her experience is in managing special programs, including Bid to Goal, Automated Meter Reading, and other programs to improve productivity and improve operations.
- She has a BA degree in Public Administration/Business Administration.
- Enjoys serving the public, building teams and implementing changes to provide better service to our customers.

Tony Leyva

Customer Services Supervisor
(858) 614-5528

- Has worked for over 28 years in Public Utilities, including one year as a Customer Service Representative in the Billing/Customer Services Office.
- Has managed the FSI section on various occasions, and prefers to be involved in direct supervision of his teams in meter reading and field investigations, which he has supervised for over 10 years.
- Has recently assumed supervision of the shut-off and restoration sections to make improvements in serving our customers.
- During his first 17 years with the Department, he worked as a meter reader, utility worker and field representative.
- Enjoys helping customers and ensuring they have a positive experience when contacting FSI.

WITH DEEP SYMPATHY

On behalf of the People of Fox Canyon and the Board of Directors, the association's president expresses deep sympathy and condolences to Board Member

DORIS PIERSON

in the passing of her beloved two sisters within a month and a half of each other.

ART IN THE GARDEN

Well folks it is time to attend the crafts show!

Saturday, May 14, 2011 from 9:00 a. to 4:00 PM

City Farmers Nursery

(4832 Home Avenue)

For information call (619) 284-6358

Handcrafts, knitting, crocheting, handmade jewelry, baked goods, and at the nursery: plants, flowers and lots of fun.

**CENTER ON
POLICY INITIATIVES**

OUTSOURCING OF THE MIRAMAR LANDFILL

The Miramar landfill sale failed once and is again up for outsourcing through managed competition.

The outsourcing of the Miramar Landfill poses serious issues and concerns for San Diegans including:

- What are the environmental safeguards required of a private operator?
- Will service quality levels be maintained?
- How much is the outsourcing process costing taxpayers, besides the \$500,000 wasted on a consultant?
- How will strong contract oversight be ensured? San Diego has a bad history of contract management
- Rushed, flawed process

If you are interested in learning more, please contact

Nrodriguez@onlinecpi.org

TRANSITION

Police Divisional Boundary Realignment

This map does not reflect the fact that Fairmount Park will be remaining in Mid-City.

Greetings friends from Fox Canyon, I hope you are all well and for those who celebrate it, that you enjoyed a wonderful Easter with friends and family. As some of you may have heard, there are significant changes coming to our divisional boundaries. As your service area lieutenant, I would like to take a few moments to explain what those changes are and how they came about.

It has been about twenty years since a comprehensive evaluation was undertaken of how we deploy police officers throughout the city, and how we pair our communities with a given division to ensure the best overall service city-wide. Chief Lansdowne felt in a continuing effort toward that goal, that it was time for such a reassessment. Change always comes with some growing pains, particularly for a place like San Diego where unique bonds and partnerships between the community and the police department are at the core of our approach to providing safe communities. That said; I am optimistic about the benefits of the new divisional structure and confident that new and fruitful partnerships will be formed in the San Diego tradition.

By way of a refresher, the divisions are divided up by the radio frequency that they operate on. Mid-City for example is designated as the 800's. Within a division are service areas. Mid-City has three such areas, divided up into the 810's, 820's and 830's. Within those service areas are beats, such as 811, 832 and 824. By design, the beats are closely aligned with communities. As another example, Eastern Division is designated as the 300's, with two service areas, the 310's and the 320's, and underneath them various beats.

First the good news; Fox Canyon will remain within the 820's service area and continue to be overseen by Mid-City Division. Ridgeview/Webster and Oak Park will be moved under Southeastern Division which is headed up by Captain Tony McElroy. You may have heard that Fairmount Park would be included in the shift to Southeastern Division, but that has been modified and will remain within Mid-City Division. College East and College West will be moving from the Mid-City to Eastern Division, which is overseen by Captain Sarah Creighton. In terms of ground that Mid-City will be picking up, we will be taking responsibility for North Park, which had previously fallen within the responsibility of Western Division.

The rationale for this particular approach to restructuring is quite complicated. Needless to say there are many competing needs and factors to consider. Paramount among these are the commitment to providing the best service possible for the largest group of San Diego's citizens, while at the same time ensuring the safety of our officers to the greatest degree

possible. Prior to the coming change for example, Western Division was responsible for areas as far west as Point Loma and Ocean Beach. That meant a long drive to help an officer who was in a fight in North Park. Clearly, a Mid-City Officer could respond much more quickly. In a recent community meeting to introduce the upcoming changes, the question was posed as to why more officers were not simply added to Mid-City, allowing the command to pick up North Park without losing any area. The fact is that there are logistical concerns that limit how many officers we can assign to a given command. For example, Mid-City currently has so many officers working out of the Landis Street facility that we have lockers installed in the rear parking lot and enclosed by chain link fence. Of course calls for service and the types of crime the various areas experience was also factored into the final plan. These are just a few of the competing concerns that were poured over and weighed in an effort to restructure and bring about the most efficient provision of police service possible.

That is it in a nutshell. The communities that are affected by the move are encouraged to contact Eastern Division and Southeastern Division respectively. Each of these commands are headed up by very forward thinking, community minded Captains, supported by equally motivated and talented lieutenants, sergeants and officers. I encourage you to reach out to them. Bring them up to speed on the history and current challenges facing your communities. And for our friends who remain within Mid-City's area of responsibility, we look forward to many more years of continued partnership with you.

Respectfully,
Andrew Hoffman, Lieutenant
SDPD Mid-City Division

Editor's Note:

I am grateful for the great amount of emails sent asking for publication reacting to this police realignment. I have desired to print the official version provided the Police Department and not to print your requests due to the emotional content of such emails reflecting that, perhaps, the realignment issue was confused by our readers with the present issue of redistricting. I humbly beg our readers to be kind and refocus their time, effort and emotions on redistricting. Our communities need you there in high numbers. I also want to thank you for keeping our neighborhood newsletter in the list of your favorite reading materials. Rest assured that your opinion counts and we want to provide a balanced forum for your issues. But these issues need to concentrate on how to rebuild our communities better and not for other purposes.

Thank you, Jose Lopez

**LOVE AND TREAT YOUR NEIGHBORS LIKE YOU
WOULD LIKE TO BE TREATED AND BE LOVED!**

LAWN MOWER TRADE-IN EVENT

(Saturday, April 23, 2011)

Mary seems very happy to have the right mower to tackle the high grass in her front lawn.

The community of Fox Canyon is greatly thankful to **County Supervisor Ron Roberts** for his continued support of the Lawn Mower Trade-in Event, now in its 12th annual edition. Although we have no official numbers about how many neighbors in total benefitted from this event, we now know that at least two Lantana Drive residents did. To their accounts, they got up early, drove down town and waited in line (some estimates, a long line of about 400 people) for a considerable amount of time, finally being successful in getting their old gas lawn mowers exchanged for electric ones. The association is also greatly thankful to our neighbors for their successful effort

and proud that they have the insights to switch to a different energy source (from fossil fuels) to help clean the environment and provide for better air quality while beautifying their homes and the neighborhood.

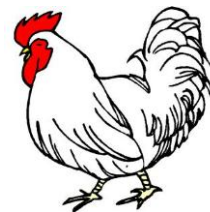

Proud Rogelio, with his new toy, now, he does not have an excuse to do lawn maintenance.

THANK YOU NEIGHBORS AND THANK YOU RON!

NEIGHBORHOOD MANAGEMENT

CHICKENS and ROOSTERS

According to Municipal Code section 42.0709, no fowl (including chickens and roosters) or rabbits shall be kept or maintained within fifty (50) feet of any building used for residential purposes. Let's consider that in addition to noise, the health issues associated with keeping fowl is the dry airborne fecal matter which acerbates allergies and upper respiratory infections when inhaled, in addition to the smell, the transmission of diseases and the addition of flies and parasites. By all means and if there are no existing language barriers bring the matter directly to the owner's attention, first. If so, the next step would be to report it directly to Neighborhood Code Compliance (619/236-5500).

For the Code Section, **THANKS Cynthia**

THREE-WAY STOP

A quick update, a traffic request was created to evaluate the **Wightman** and **Winona** intersection (92105) for a three-way stop. I am obtaining the traffic request number; the evaluations typically take 30-90 days. We will keep you apprised. **Warm regards, Cynthia**

STREET SWEEPING

Street sweeping is scheduled on the 1st and 4th Mondays of each month. According to neighbors the ticket has gone up from \$40 to \$54 or \$56 (two conflicting reports). Regardless of the time the sweeper goes by (one morning it was at 8:30 a.m.) the posted time needs to be respected (10:00 a.m. to 1:00 p.m.) That day, many residents either did not move their cars after seeing the sweeper go by early or moved their cars right back after it has gone by. They all got a ticket at 11:00 a.m. Be aware and always check your notice of violation and the time it was issued.

COPPER-PIPING THEFT

Be aware and on the lookout for people who do not belong in the neighborhood. They might be casing abandoned houses and/or long

hour-working neighbors. The reason: cutting off your copper piping to sell as scrap metal and recyclables. Be amiable and helpful; keep an eye on your neighbor's property as they are away, or at work. The story conveyed of a family coming home to no water and a flooded basement after of a long day at work and taking the kids to their after school activities is daunting. After the thieves were done, the family had no water piping at all, all gone and only left with a very extensive and expensive repair bill. Steps you can take to protect your copper pipes: (1) if they are in the basement, or crawl space, keep the trap door closed and under key. (2) If they are exposed, cover them. (3) Keep all your side gates closed and under key. (4) Be mindful of where your water heater is situated, if outside weld a chain around it with a combo key. (5) If you see prowlers and suspect illegal activity, better to be safe than sorry, call the police at (619) 531-2000. The association will be the hub for your abandoned houses reports, email: (FoxCanyonN@aol.com)

BE AWARE, NO PARKING!

Neighbors, please be aware that your vehicles will be towed at your own expense if you continue to park them at **AUBURN & ONTARIO** on the dirt road and blocking the cattle gate. This area has become a hub for a new and illegal parking lot. SDPD and Code are aware of this situation and they will begin towing cars away soon after this public announcement.

CAR

The inoperable black car parked on rocks, for the last 10 months, at 4936 Lantana will soon be gone, or at least within the next 60 days, the property owner have assured us.

ELOTES... TAMALES!!!

Is the loud announcement heard bouncing off the canyon walls around 6:00 pm. Calls for solution to this noise problem have been logged. The ambulatory sale of food items (sweet bread, elotes, eggs, tamales, candy, push-cart ice cream, etc.) continues to be a code violation. But a quicker action for resolution is to call in a noise complaint (619) 531-2000. When and if you call have the vehicles plates ready and a description of the vendor.

MINIDORM ORDINANCE

The Minidorm Ordinance is now permanent. This ordinance comes coupled with a "habitual party house" section. This section will fine the resident and also the Landlord (if a rental) a \$1,000 fine, each.

HELP PAINTING THE OUTSIDE OF HOMES

Although out of the loop for at least three years, many residents have called in asking for information about programs that help paint the outside of their homes. Such help is given to low and medium income households and some programs include: FaceLift (see flyer, page 10), Rebuilding Together San Diego (if funding has been provided by the Councilmember

through CDBG) and the HELP program (forgivable loans) from redevelopment areas (Crossroads and City Heights) and administered by the Housing Commission. For the HELP program Call Lyle Knudson at (619) 578-7521, for Rebuilding Together San Diego call (619) 231-7873 and (Community HousingWorks) FaceLift (619) 282-6647.

ASSOCIATION MEETING MINUTES

[Tuesday, March 08, 2011]

The meeting was called to order by President Lopez, at 6:20 PM.

Meeting attendance was eighteen (18) adults & 5 children including **Cynthia Harris** (Office of Councilmember **MARTI EMERALD**, 619-236-6677), **Ben Zeiger** (Office of State Assemblyman **MARTY BLOCK**, 619-462-7878), and Police Officer **Luis Roman** (CRO), 619-516-3038.

Update(s) Announcements:

- Vice-chair Davis and Boardmember Pierson are not feeling well and will miss today's meeting. Wish them both a speedy recovery. Doris lost two sisters within 1½ months.
- Mr. Portland (Office of County Supervisor Ron Roberts) called asking to be excused from today's meeting.
- CHAPC meeting, informational item 50th & University project proposal, please attend.
- Congratulations to Assemblyman Marty Block on his pending recognition and award from the Assembly (Ben will present more information in due time).
- Letter from Assemblyman Marty Block.
- Used tires, anyone? Participate in the cleanup, flyer in newsletter
- Do not miss Ron Roberts Lawn Mower Exchange Event, don't miss flyer is in newsletter.
- Board will meet Tuesday, March 26 @ 6:30 p.

Off-Agenda Public Comment:

(1) The community would like to have a progress report on Leo's Auto-body Shop, the 3-way stops on Euclid/Dwight, and Wightman/Winona, (2) Parking on Ontario/Auburn getting out of hand with a Motorhome permanently parked at this location, (3) Collective on the south of University (corner of alley) between Euclid/47th Street has begun to be a nuisance to the community, (4) underage kids smoking pot (alley between Euclid/47th). (5) Neighborhood to west of Euclid needs help organizing cleanups, graffiti paint-outs

Neighborhood Concerns: NO minutes

Field/Comm. Rep's Reports:

1. **Ben Zeiger:** (1) Marty sends regards; (2) Marty's AB-743, community college student assessment legislation, was approved by the Committee on Higher Education, unanimously; (3) Marty's AB-918, gang related pimping, was approved by the Public Safety Committee, unanimously (6-0); (4) Do not miss the Rolando Street Fair.
2. **Cynthia Harris:** (1) You are invited to the State of the District Report, (2) The matter of Leo's is progressing under the City Attorney's process, (3) Muni-code amendment for medical marijuana requirements, (4) The Alliance for African Assistance is offering **FREE** tax preparation for taxpayers making under \$47,000;
3. Marty's newsletter on information table.
4. Police Officer **Luis Roman**, CRO: (1) Copper piping theft increasing (2) the Neighborhood Association will be the hub for your abandoned house reports (FoxCanyonN@aol.com), (3) Crime in Fox Canyon decreasing, most serious crimes, all around it, (4) the leadership is invited to attend the Leaders meeting with the Mid-City Captain.

Presentation(s): NONE

Refreshments:

A kind donation from **Doris Pierson, PBMS** and **Jesse Chavez**
Adjournment: At 7:50 PM, to the Corporation of the Fox Canyon
 Neighborhood Association Board Meeting of 03/26/11 at 6:30 p.m.
Jose Lopez, President

BOARD MINUTES

[Tuesday, April 26, 2011]

The Board did not meet

Mercedes Martinez-Shetter, Secretary.

BOND PAUSE LIFTER FOR PRIOR NOFAs

The Governor's Office has stated that it will lift the pause on pipeline projects stuck at the California Department of Housing and Community Development with funding applications submitted under pre-existing Notices of Funding Available (NOFAs). This includes 17 multifamily projects under the Multifamily Housing Program and Serna Farm Worker Housing Grant, 24 single-family projects under the California Self-Help Housing Program, as well as other single-family projects under CalHOME and BEGIN, and one Local Housing Trust Fund Program project in Marin County. While this is a significant step in the right direction, housing advocates from around the state are continuing to work to convince the Administration to re-release NOFAs withdrawn earlier this year and ensure that subsequent bond sales include sufficient dollars to fully fund all current and prospective projects under Propositions 46 and 1C.

Newsletter Circulation: 551 hard and 1,900 E-mailed copies.

Doris Pierson proofreader, we're grateful for the donation of her time.

The Fox Canyon Voice

Reserves for itself the right to edit for space, clarity and content all materials submitted for publication.

The views expressed in this newsletter are strictly those of the authors and **DO NOT** necessarily reflect the views of the FCNA, organization.

REDISTRICTING, from page 4

FOX CANYON REDISTRICTING MAPS

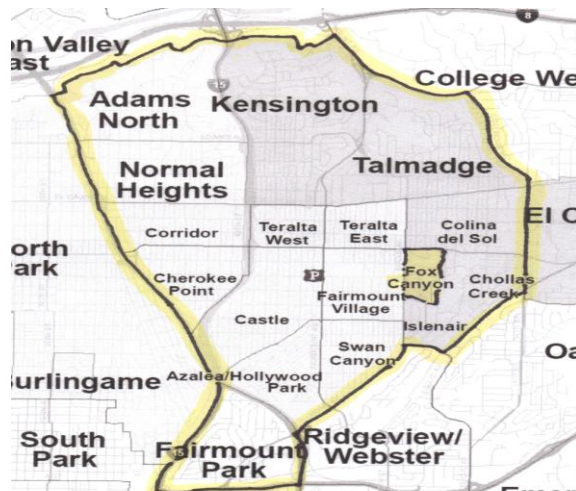

Commissioners:

We have paired older neighbors with newer communities to redistributed resources and city services from the General Fund. We have mixed ethnic groups and cultures, not to divide them but to create a bonding diversity and a common culture. We have established three different district boundaries to gain political clout. All these have served us well during the last ten years and Fox Canyon has prospered within District Seven. However, it is time to face reality! As per the last Census data of City Heights and taking Fox Canyon as a typical microcosm and a random sample, our particular demographics places our total current population at

1,389 residents, distributed as follow:

Latino	50%
Asian	23%
Black	15%
All other	12%

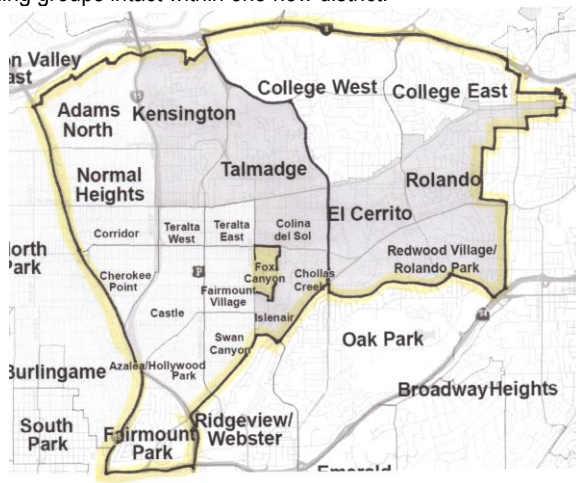

This new reality forces us to look at and plan for the future, not the past. The future will bring us the proposal of one **united CITY HEIGHTS CORE DISTRICT, the 9th**. The core of this new district will encompass **ALL** of City Heights (in the south) with the communities of Talmadge, Kensington, Normal Heights and Adams North (to the north), from 805 to 54th Street and from 8 to 94; and places the core district at **99,992** people.

Option # 1:

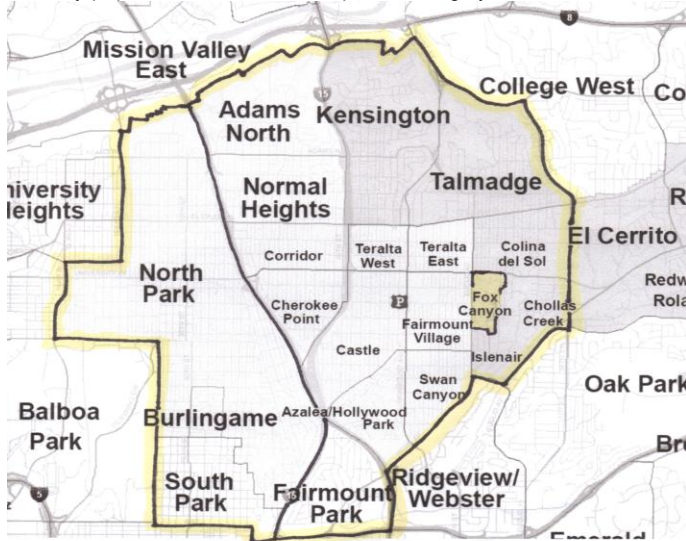

Encompass the new City Heights core District plus the communities to the east of Euclid Avenue (College West/East, Rolando, El Cerrito, and Redwood Village/Rolando Park) to La Mesa and from 805 to 94. Preliminary population count for this option is roughly **139,585+**.

This is our best proposal and **PREFERRED OPTION!** Coupled together are traditional communities of interest and need sharing communal, cultural, financial and traditional bonds, which have existed for more than thirty (30) years within the boundaries of District seven. This proposal is not **gerrymandered**, achieves great social justice and best redistribution of the powerful political and educated elite, resources and city services. This proposed option is contiguous, compact and cocooned within major freeways framing strong and definite district boundaries and with two great arteries, El Cajon Blvd and University Avenue traversing east/west. This proposed option will leave all planning groups intact within one new district.

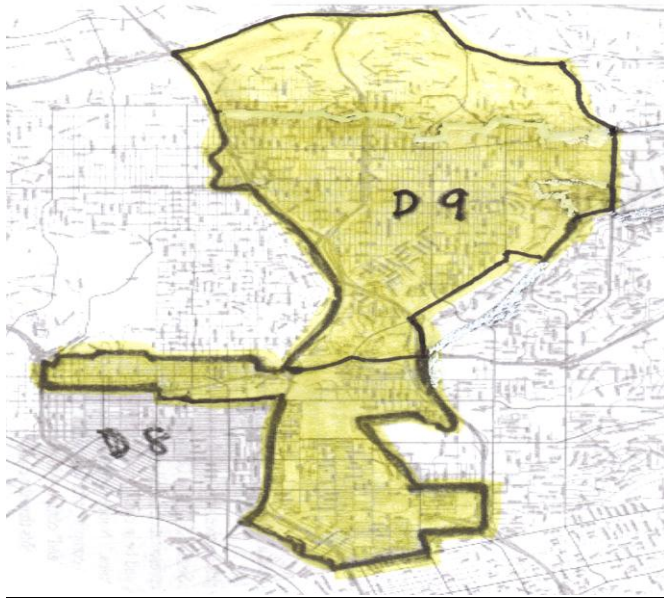

Option # 2:

Encompass the New City Heights core district proposal plus the communities to the west of 805 (North Park, Burlingame and South Park) from 8 to 94. Preliminary population count for this option is roughly **144,417**.

This option is **NOT** our preferred option, but we will be very happy within it. This option will bring a great number of Latino residents together and follow newer police enforcement boundaries.

Option # 3:

The City Heights Core + going south to the Latino Core to form a new Latino District (Golden Hill, Grant Hill, other communities), Population: **Unknown**. It is extremely essential for the New City Heights core district to keep within it the communities of North Adams, Normal Heights, Kensington and Talmadge.

In parting, we reserve the right to newer and extended comment throughout the public hearing period, to redefine the District proposal, the boundaries and the population numbers to fit set specifications.

We urge to strongly support the City Heights core District with option # 1.

Respectfully submitted,

Jose Lopez

NEXT REDISTRICTING REVIEW

If you live in the communities to the east of 54th street come and let know what your choice is and what map you support. Ask yourself, which neighbors do I want to have next door, if I have a choice?

City Heights Town Council's Redistricting Review

Tuesday, JUNE 7, 2011 at 6:30PM

The City Heights Recreation Center, 4380 Landis Street
(Arrive early to find parking)

ACCION

QuickBooks Basics Workshop

Instructed by Dynamic CPA

&Accounting Experts:

Mayumi Young & Frances Cortez

When:

Saturday, May 21, 2011

8:00 AM to 12:00 PM PDT

Registration Begins: 7:00am

Where:

Joe and Vi Jacobs Center

404 Euclid Avenue

Celebration Hall (Main Downstairs Assembly)

San Diego, CA 92114

Cost is **\$10** before May 4th. **After May 4th = \$15!**

BREAKFAST and COFFEE INCLUDED!!

*This four hour training is valued at **\$100**, but ACCION and CPA MOMS is bringing it to you for only **\$10!***

Join this FOUR hour, hands-on training workshop presented by a team of accounting experts!

For those who joined our January QuickBooks workshop, you will see that the pre-requisites and content of the workshop are simplified with a narrower focus to help you acquire as much info as possible during this event.

This workshop will begin with reviewing **key accounting principles**, and will jump right into practicing in real time **5 essential QuickBooks functions** to help your business operate efficiently.

Hi, I wanted to know if you know of any way to get vagrants out of Highland and Landis Park. Do you know if there is a law against loitering, or against drinking at the park? Do you know where I can go to get more information?

Thanks!

Michelle

RE-ENTRY

April 8, 2011

Dear Jose,

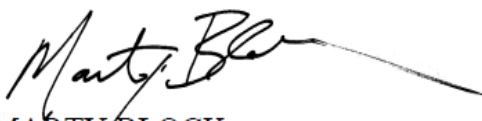

Thank you for taking the time to express your support for Redevelopment Agencies in the State of California.

I am always pleased to learn when communities mobilize in order to speak out for a cause, and what the members and friends of the Fox Canyon community organized on Saturday, March 5th was no exception. Over 130 individuals from Fox Canyon and beyond made it clear that they support redevelopment here in San Diego and throughout the State of California.

I am currently still gathering information regarding Redevelopment Agencies and their effect on the 78th District and the State as a whole, and will keep your opinions in mind when and if a vote regarding Redevelopment Agencies comes before me in the Assembly.

Again I thank you for taking the time to petition my office and speak out on behalf of what you believe and I look forward to hearing from you in the future on this or other matters of concern to you in the State of California. Please know that you may always reach my office directly at (619) 462-7878 or via my website at www.assembly.ca.gov/block.

Sincerely,

MARTY BLOCK
Assemblymember, 78th District

Save the Date for Summer 2011 FaceLift

Saturday, June 11, 8AM to 2PM

Over 500 Homes FaceLifted Since 1995

House Facelifted at the Fall 2010 event by the Design Institute of San Diego Team

Community
HousingWorks

WHAT IS FACELIFT?

FaceLift is a spruce-up-a-block-in-a-day event that is accomplished through the help of community volunteers, neighborhood associations, local business leaders, and local political leaders acting as a catalyst to build pride and equality. A dozen homes on Trojan Avenue in the Colina Park Neighborhood of City Heights will be made over during our one-day event. FaceLift gives priority to senior citizens, disabled persons and low income families that need assistance. FaceLift provides exterior painting, minor landscaping, and the removal trash and debris from the entire area.

HOW CAN YOU HELP?

To Volunteer RSVP to
Linda Pennington by May 28th:
Home Office: (619) 563-4014
gizmopennington@cox.net

Volunteers under 16 must be accompanied by an adult
